

Essex Westford School District - National 1927
FLEET REPORT FY21

SPC SUMMARY

This annual fleet report is a service SPC offers in order to stay ahead of problem or aging units under contract. It is designed to highlight areas of concern as well as determine how well your vendor is managing your fleet.

Out of 304 units under contract with National 1927, there were 73 service calls on 47 copiers and printers during the fiscal year. Uptime for your fleet was 99.98%, which is outstanding for the size of your fleet. SPC's bid specs require vendor to arrive within an average of four hours for service calls. However, each vendor calculates these figures differently. National notes their average response time from call to arrival as 1.31 hours, which is also outstanding.

Your last upgrade was 7/1/2017. All machines are under a five-year+ warranty and service contract that expires on 6/30/2023. However, the average model in your fleet was introduced 6.62 years ago. One hundred ninety-one units are more than 7 years from date of intro with two of those over 17 years from date of intro. We monitor this detail because as models get more than 10 years out from date of introduction parts become harder to locate and repair times may be longer.

Only one unit had 5 or more service calls during the fiscal year, which is the color copier in the office at Summit Street Elementary School, Kyocera TASKalfa 6052ci. This copier is 55 PPM black and 30 PPM color. Details of those service calls can be found on the next page. We have included the service history for this machine since its installation as a reference and comparison.
