

NHSAU 61 - KMBS FLEET REPORT FY21

KONICA MINOLTA

SPC SUMMARY

This annual fleet report is a service SPC offers in order to stay ahead of problem or aging units under contract. It is designed to highlight areas of concern as well as determine how well your vendor is managing your fleet.

Out of 41 units under contract with KMBS, there were 34 service calls on 17 copiers and printers during the fiscal year. Uptime for your fleet was 99.87%, which is fair for the size of your fleet and number of service calls. SPC's bid specs require vendor to arrive within an average of four hours for service calls. However, each vendor calculates these figures differently. KMBS notes their average response time from call to arrival as 3.92 hours, which is within the requirement.

Your last upgrade was 8/2/2017. All machines are under a five-year+ warranty and service contract that expires on 6/30/2023. However, the average model in your fleet was introduced 7.13 years ago. Twenty-eight (28) units are more than 7 years from date of intro. We monitor this detail because as models get more than 10 years out from date of introduction parts become harder to locate and repair times may be longer. Because so many are aging, you may want to consider an equipment upgrade in the near future.

No units had more than 4 service calls, which means the vendor is keeping your equipment running well.
