

RSU 37 - A-Copi Fleet Service Report FY21

SPC SUMMARY

This annual fleet report is a service SPC offers in order to stay ahead of problem or aging units under contract. It is designed to highlight areas of concern as well as determine how well your vendor is managing your fleet. It is noteworthy to share that your black volumes increased by 23% from last year and your color volume increased by 17%, despite COVID restrictions affecting a full school year for FY21.

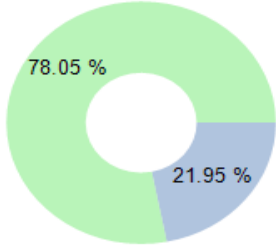

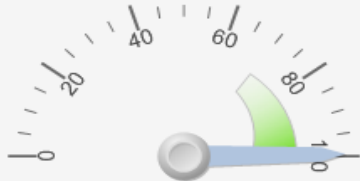

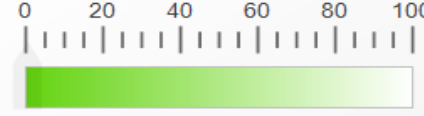

Out of 56 units under contract with A-Copi, there were 45 service calls on 18 copiers and printers. There were two machines with five or more service calls in the reporting period. Details of those calls can be found at the bottom of the equipment details page.

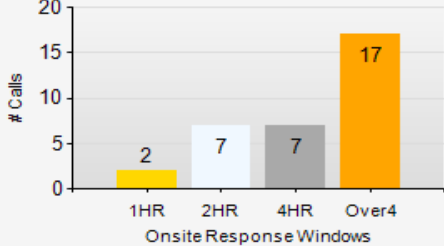

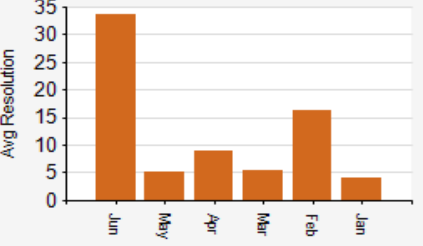

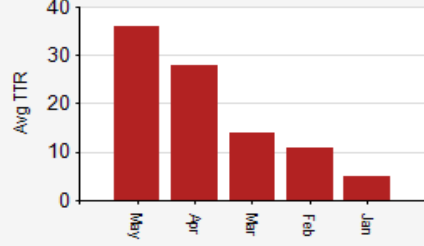

SPC's bid specs require vendor to arrive within an average of four hours for service calls. However, each vendor calculates these figures differently. A-Copi notes their response time from call to arrival as 10.23 hours, which is very poor. However, they do note that 48% of the calls were responded to and completely resolved in less than four hours. Average up time was about 99.54%, which is fair for the size of your fleet. Certainly the average response time can be improved upon.

Your last upgrade was 8/2/2017. All machines are under a five+ year warranty and service contract that expires on 6/30/23. However, the average model in your fleet was introduced 6.62 years ago. Eighteen units are more than 8 years from date of intro. We monitor this detail because as models get more than 10 years out from date of introduction parts become harder to locate and repair times may be longer.

Overall your fleet seems to be performing fairly well.

RSU 37 - A-Copi Fleet Service Report FY21

78.05%	First Call Effectiveness (OnSite)	99.54%	Machine Availability		NetPromoter Score
78% of 41 OnSite CM visits were resolved in ONE visit for the reporting period		Total target service hours for all contract machines during period was 113792.00. The total # hours (call received until call completed) was 523.84		No survey responses for the period	

10.23 hrs	Average OnSite Reponse Time	10.8 hrs	First Call Fix Avg Resolution Time (On-Site)	21.1 hrs	Rescheduled Calls Avg TTR Time (first call received until final call closed)
48% of 33 corrective maintenance calls were responded to and completely resolved in under 4 hours		10.8 hrs was the average hours for first call fix from when call opened to problem resolution on 33 calls		21.1 hrs was the average resolution (CM) hours from when first call opened to final rescheduled call resolution on 8 rescheduled service calls.
