

SPC SUMMARY

This fleet service report is a service SPC offers in order to stay ahead of problem or aging units under contract. It is designed to highlight areas of concern as well as determine how well your vendor is managing your fleet. Because of COVID-19, your volumes dropped by 42%, which likely has an effect on the number of service calls on your equipment for FY20.

Out of 212 units under contract with KMBS, there were 123 service calls on 76 copiers and printers during the fiscal year of July 1, 2019 to June 30, 2020. Uptime for your fleet was 99.92%, which is excellent for the size of your fleet. SPC's bid specs require vendor to arrive within an average of four hours for service calls. However, each vendor calculates these figures differently. KMBS notes their average response time from call to arrival as 3.75 hours, which is also excellent.

The average model age of your equipment is just under six years from date of intro, with 11 units more than 7 years from intro. As models get more than 7 years out from date of introduction parts become harder to locate and repair times may be longer. You may want to consider replacing those units in the near future.

Two units have 5 or more service calls for a variety of issues. Details for the two machine's service calls can be found on the next page.

NHSAU 54 Rochester

Equipment with 5 or more calls for the reporting period July 1, 2019 to June 30, 2020

Current Equipment Details	Location	Serial Number	# Service Calls	Avg Copies between all Service Calls (incl PM)	Avg Response Time	Uptime%	Actual Monthly Volume Black	Actual Monthly Volume Color	Model Type	Reasons for service calls
