

**SAU 42 - KMBS
Fleet Report FY22**

KONICA MINOLTA

SPC SUMMARY

This annual fleet report is a service SPC offers in order to stay ahead of problem or aging units under contract. It is designed to highlight areas of concern as well as determine how well your vendor is managing your fleet.

Out of 221 units under contract with KMBS there were 358 service calls on 69 copiers and 35 printers during the fiscal year. Uptime for your fleet was 99.7%, which is excellent for the size and age of your fleet, especially given the number of service calls this year. SPC's bid specs require vendor to arrive within an average of four hours for service calls. However, each vendor calculates these figures differently. KMBS notes their average response time from call to arrival as 7.08 hours, which is very high. Sometimes low-priority calls, however, can affect the average response time.

Your last upgrade was on 8/2/2020. All machines are under a five-year+ warranty and service contract that expires on 6/30/2026. The average model in your fleet was introduced just under 6 years ago. Seventy units are more than 7 years from date of intro, with 6 of those being 10 years out. We monitor this detail because as models get more than 10 years out from date of introduction parts become harder to locate and repair times may be longer.

Twenty-seven units have 5 or more service calls for a variety of issues. Details on those service calls can be seen on the last page. There were 5 with 10 or more calls, which is very concerning; however, those units along with 12 others are part of the Phase 2
